

PREDATOR CHRONOGRAPH 24 HOURS

DESCRIPTION

Predator Chronograph with 24 Hour Counter
Limited edition of watches, worn by Rebellion Racing's pilots during the 2010 Le Mans 24 Hours® race.

An exclusive watch for those with a passion for speed

Despite its relatively classical shape, the Predator perfectly encompasses the passion of REBELLION 's founders for endurance car racing. A passion that carries through to the race team that wears the brand's name, 'Racing Rebellion', which participated in the Le Mans 24 hours and the Le Mans Series in 2010, with two Lola LMP1 driven by Nicolas Prost, Andrea Belicchi, Neel Jani and Jean-Christophe Boullion.

A limited edition of 24 watches, called the LM24, was launched at the Le Mans 24 hours in 2010, and the watches were be worn by the drivers during the race.

Race refined components.

Many characteristics of the Predator, both technical and aesthetic, are inspired directly from racing cars and are found in most aspects of the watch.

The chronograph counters are connected to the dial by push rod shaped bridges decorated with a central ruby reminding us that, despite the watch's avant-gardist nature, the Predator is crafted with respect to horological tradition.

Design and Material Characteristics

Dial and bezel in carbon fibre with pilot's name

Sapphire back fixed by 6 torx screws

Chronograph counters are connected to the dial

by push rod shaped bridges
